"Brokers of good quality new and second hand narrow boats."

REF: 10544

Boat Name: Calluna

Calluna is a 34 foot cruiser stern narrow boat built and fitted out by T.T. Marine in 1992. She is powered by a 25hp Beta Marine engine located under the rear deck. Although small in appearance the inside of her cabin feels spacious along with 6'3" headroom which is unusual for a smaller narrow boat. From entering from the rear deck is the shower room, with full height shower, Thetford C200 cassette toilet and wash basin. Forward of this is the main bedroom with cross double and plenty of storage. Next comes the fully fitted galley with stainless steel sink/drain, under counter fridge and gas hob/grill/oven unit. At the front of the cabin is the saloon with two bench seats that can double up as two single berths and front doors that open out on to the front well deck. Calluna is heated by an Eberspacher diesel heater which is in the engine compartment and heats the radiators inside the cabin. A new cratch cover was fitted over the forward well deck in August 2023 and she was dry docked and blacked in August 2023. A current Boat Safety Certificate is in place until March 2024.

£33,500.00.
