*"Brokers of good quality new and second hand narrow boats."*

REF: 10500

Boat Name: Ledra

Ledra is an elegant 60 foot tug style narrow boat built by the well renown boat builder Steve Hudson at Glascoate in 1997. This is one of only two boats that he built with recessed panels on the main cabin as well as the back cabin/engine room. She is powered by a Lister JP2M genuine marine diesel engine with Lister Blackstone gearbox and controlled using traditional controls from the steering position.

The fitout has been completed to a high standard; also, by the boat builder, using faced ply trimmed with solid and substantial hard wood. The layout from the stern comprises of: back cabin decorated in traditional style with scumbling, roses and castles. The back cabin is heated by a Premier cooking range. A pair of doors lead into the engine room; also decorated in traditional style, which houses the engine, batteries, electrics, diesel tank etc. A side door now takes you in to the double bedroom which benefits from plenty of storage including a full height wardrobe at the foot of the bed. A passageway follows with a door into the bathroom which is fitted with Mansfield Traveller pump out toilet, wash basin, full height shower and storage. From here forward the boat is largely open plan with galley fitted with hob, grill and oven, sink/drain, and fridge. Forward of this is the saloon which is heated by a Morso Squirrel stove. Underneath the front tug is a storage space which not only contains the water tank, but also a Candy Washing Machine. Ledra has been regularly docked and blacked here at Norbury Wharf and was professionally painted in 2015. The Lister engine has been regularly serviced by a Lister specialist. A Webasto diesel heater provides heating throughout the boat by means of radiators and also heats the hot water through a calorifier.

Ledra is a solidly built and much-admired boat.
